‘A Global Virtual Village for Languages and Art’

Regarding application for Erasmus+ School Education, Key Action 2 – Strategic partnerships

After thorough assessment of the project activities and according to the regulations of the Erasmus+ programme a budget reduction is completed. Thus, the Strategic Partnership will receive a lower grant than applied for. The quality of the project outcome must not be affected by this budget reduction.

All reductions and/or cuts have been based on recommendations from the external evaluators or clerical errors.

Intellectual Output: Based on the assessment of the external evaluator, the requested grant for the Intellectual Output will be reduced by 50 %. The Intellectual Output are well planned and very relevant for the project. However, it is considered that the number of working days per task are too high. For example, Municipality of Vejle will spend 90 working days on creating and maintaining a Google website already built and structured for the purpose of the project, and the partner counties will spend additionally 40 working days on the same site. This is considered unrealistic according to the project outcome. In total, the intellectual output will be reduced by 74 437,50 €.

Requested grant: 271.350 €

Approved grant: 197.296 €

Please refer to the Grant Agreement for the final overview of the approved activities and budget.
